

## Scientific meeting

### Danish Hypertension Society

#### **Home and Ambulatory Blood Pressure Measurements Revisited**

- Does Ambulatory BP really improve risk stratification beyond office BP?  
Which BP should we target – day or night?

Aarhus University Hospital (Nørrebrogade), Patologisk Auditorium

Wednesday February 28th, 2018, 15.00 - 18.00

#### **Program**

##### **15.00 Welcome**

- 15.05 Prognostic information from out-of-office blood pressure measurements v/Teemu Niiranen, Turku, Finland
- 15.40 Office or ambulatory blood pressure – new insights from epidemiological studies v/ Christian Torp-Pedersen, Aalborg, Denmark
- 16.15 Discussion

##### **16.30 - 16.50: Coffee break**

- 16.50 Nighttime blood pressure and chronotherapy v/Niklas B. Rossen, Silkeborg and Aarhus, Denmark
- 17.10 Nocturnal Blood Pressure and Lipid Lowering Treatment for the Reduction of Cardiovascular Events in Patients with Type 1 Diabetes: A Randomized, Controlled Trial: The NOBILITY Trial v/ Henrik Hjortkjær, Copenhagen, Denmark
- 17.30 The role of measurement intervals for ambulatory blood pressure levels v/Kent Lodberg Christensen, Aarhus, Denmark
- 17.40 Discussion
- 17.55 Meeting closes**
